

Mr. EGUCHI Shuji

Executive Director, Japan Railway Construction, Transport and Technology Agency (JRJT)

Mr. EGUCHI has an extensive career in the field of railway transport in Japan. He began his career as a technical official for the Ministry of Land, Infrastructure, Transport and Tourism (MLIT) and spent 35 years focusing on the planning, development, and maintenance of railway transportation in Japan.

During his tenure at MLIT, he also contributed to various transportation-related advisory committees and played a role in the research and implementation of railway systems regarding Viet Nam and so on. After completion of the duty as an official, he served as the Distinguished Research Fellow of Japan Transport and Tourism Research Institute (JTTRI) until March 2023 and was involved in the study on the TOD (Transit Oriented Development) and European railway system.

Since April 2023, he has taken on the role of an executive director at JRJT, where he is actively involved in the completion of the extension of high-speed rail “Shinkansen” network and the study of the effects of railway network development.
