

Dr. Somsiri SIEWWUTTANAGUL

Lecturer, Cluster of Logistics and Railway Engineering
Faculty of Engineering,
Mahidol University

Dr. Somsiri Siewwuttanagul (PhD) is a passionate railway transportation researcher who focuses on analyzing both passenger and freight transport. With a diverse educational background in Urban planning and transportation planning, he brings a comprehensive perspective to his research. His enthusiasm extends to studying multimodal transportation, which emphasizes seamless connections throughout the entire transport process. His expertise and interests contribute to advancing our understanding of railway transportation and its integration within broader transport networks.
